

VIDEO TRANSCRIPT

Hi. My name's Wes Alan, I'm the founder of Tap Edit Go.

Matt at Kicking Pixels actually made our website look so amazing.

He guided me through the whole process and actually consulted with me on exactly what I needed and how to make this online store work.

I've done some websites in the past, but not to a professional level. I thought I was competent until I really met him.

He just did everything that I needed, even advised me on how to lay out certain things, and what algorithms to use, and what plugins to use.

He did everything, from top and tail, and I really couldn't have a great website without him.

So, I really want to thank Matt at kicking Pixels, because he smashed it.
